What Role Does Generation Z and Alpha Play in the End Times?

Sixbert SANGWA • August 08, 2024

Generation Z, commonly referred to as Gen Z, follows Millennials and generally includes those born between the mid-to-late 1990s and early 2010s, specifically from 1997 to 2012. As this generation comes of age, their unique characteristics and perspectives are shaping the world in unprecedented ways. Gen Z has grown up during rapid technological advancement, global interconnectedness, and significant social change. While they are often praised for their adaptability, tech-savviness, and social consciousness, there is a deeper, more troubling undercurrent that demands our attention from a Christian perspective.

Gen Z's upbringing has been markedly different from previous generations. They are the first generation to have been fully immersed in digital technology from a young age, with constant access to the internet, social media, and mobile devices. This has shaped them into global citizens who are more racially and ethnically diverse and share a common global culture that often lacks the deep-rooted values of their ancestors. They are highly concerned with social issues like climate change, inequality, and so-called human and child rights. These concerns, though seemingly noble, can sometimes be rooted in the deceptive ideologies of the New Age movement, which often contradict Biblical principles.

The label *"Generation Z"* is particularly significant when viewed through a spiritual lens. The letter "Z" is often associated with the end or the last, symbolizing that this is the final generation before the world fully entered the New World Order—a concept that Christians believe is linked to the coming of the Antichrist and the end of humanity as we know it. The New World Order, which is believed to have officially begun in 2012, marks a turning point in history where traditional values have increasingly been replaced by secular, often satanic, ideologies.

One of the most concerning aspects of Gen Z is how they are being used as pawns in a larger, more sinister agenda. In countries like Kenya, we have seen how young people are being manipulated to cause political unrest and social disruption. This is not an isolated incident but rather a strategy that is being replicated across the globe. The aim is to destabilize nations, weaken governments, and create chaos, all of which are tactics that align with the goals of the Illuminati—a secretive organization that many believe is working to bring about a one-world government under the rule of the Antichrist.

The Illuminati's influence can be seen in various aspects of society, particularly in the realm of politics. Democracy, which is often hailed as the pinnacle of human governance, can be viewed through a different lens when we consider its potential as a tool of Satan. Democracy, in its current form, often promotes relativism—the belief that there is no absolute truth, and that morality is subjective. This stands in stark contrast to the Biblical teaching that God's Word is the ultimate truth (John 17:17). By promoting ideas like *"everyone's opinion is valid,"* democracy can lead to the erosion of Biblical values and the rise of ungodly laws and practices, such as the legalization of abortion and the normalization of same-sex marriage.

Historically, democracy was used to dismantle the monarchy system and the divine authority of kings, replacing them with republics. This shift significantly undermined the concept of God-appointed rulers, creating a vacuum that facilitated the rise of secular governance. The establishment of republics paved the way for the idea of a one-world government, uniting various nations under a single political framework. The United Nations, often seen as the pilot project for this global governance, plays a crucial role in promoting democratic ideals on an international scale.

The international community, including organizations like the United Nations, often plays a role in promoting these democratic ideals. However, these organizations are not always aligned with Christian values. In fact, many of their initiatives, such as those related to sexual and reproductive health, can be seen as direct attacks on Biblical teachings. For example, the push for comprehensive sex education, which is often promoted under the guise of human rights, can lead young people away from the purity that God desires for them (1 Thessalonians 4:3-5). Other concerning initiatives include the promotion of rights to abortion, which contradicts the Biblical view of the sanctity of life, and the support for divorce and remarriage, which goes against the Biblical emphasis on the sanctity of marriage (Matthew 19:6). Additionally, the acceptance and normalization of gender fluidity and homosexuality are seen as direct challenges to the Biblical teachings on gender and sexuality (Romans 1:26-27). These initiatives, while often framed as progressive and inclusive, can undermine the core Biblical values and lead society further away from God's design.

The intentions behind promoting gender equality and excessive child rights can also be scrutinized. While gender equality aims to ensure that individuals of all genders have equal opportunities and rights, it can sometimes be used to push agendas that contradict Biblical views on gender roles and family structure. Similarly, excessive child rights, while seemingly focused on protecting children, can lead to the erosion of parental authority and traditional family values. These efforts, under the guise of promoting equality and rights, can serve to further secularize society and diminish the influence of Biblical principles.

As we consider the future, it's important to recognize that the generation born after 2012, known as Generation Alpha, is expected to be even more deeply influenced by satanic values. The name "*Alpha*" signifies the beginning of a new era, marking the world's full entry into the New World Order project since 2012. This generation is coming of age in a world that has fully embraced this New World Order, with little regard for the traditional values that once held society together. As Christians, we must remain vigilant and discerning, understanding that the battle we face is not merely physical but spiritual (Ephesians 6:12).

In conclusion, Generation Z is more than just a demographic cohort; it is a generation that may play a crucial role in the unfolding of end-time events. Through the lenses of politics, the influence of the Illuminati, and the role of democracy as a potential tool of Satan, we can see how the world is being prepared for the reign of the Antichrist. This generation's influence extends to the church and faith, challenging traditional beliefs and practices. Many churches, in an attempt to remain relevant, have adopted more liberal stances that align with Gen Z's progressive values, often at the expense of Biblical truths. The emphasis on social justice, inclusivity, and modern ideologies strongly dilutes the core message of the Gospel, leading to a form of faith that is more about cultural conformity than spiritual conviction. As believers, we must remain steadfast in our faith, grounded in the truth of God's Word, and aware of the spiritual forces at work in our world today. Let us heed the warning of Jesus in Matthew 24:42: *"Therefore keep watch, because you do not know on what day your Lord will come."*
